

# Pond Buddy

Solar Powered High Level Warning Alarm

No matter what type of effluent storage you currently use (sump or pond), you can fit a simple system that will monitor and warn you it is approaching High Level before its too late

## High Pond Level Warning Alarm System

- Solar Powered, no mains power required
- Siren and Beacon Alerts
- Stand alone simple Alarm monitoring tool
- Alerts to when pond level is past the 'safe' level
- Pond level needs to reduce to acceptable level for reset to take place
- Manual mute for siren
- Test button (manual check that unit is operational)
- Works for both pond and sump

**Easily installed by farmer—no need for expensive installation costs.**

*Optional—an extra float switch can be added to monitor the sludge bed as well as the pond.*

**POND BUDDY HIGH LEVEL WARNING ALARM  
SW555R \$730 + GST (RRP)**
